

FALL RIVER Rod & Gun Club

N2801 Mickleson Road * Fall River, Wisconsin 53932 * (920) 484-3235

Dear Badgerland SCI,

The Fall River Rod and Gun club hosted their 21st annual youth trap shoot along with pellet and bb gun shoot on July 15, 2023. We offer this event for youth to participate in trap shooting, and pellet and bb gun shooting range. Whether participants are just learning to shoot or have been mentored for years, it is still our responsibility as sportsman to support these events. Opportunities for youth to participate in safe/supervised shooting events is essential for the future of the outdoor future. Thank you for your outstanding support. We had 51 youth participants this year and a lot of smiling faces.

The event is held the third Saturday in July with a rain date the following day. The event starts at 10am for participants. Participants begin with registration and then have opportunity to begin shooting. Trap shooting is done in rounds of 10. Participants are not limited on how many times they can shoot. This year we added a pellet gun range for the older kids and continued the bb gun range for the young kids. They had opportunity to shoot targets and balloons. There was a competition in each of those areas as well. Lunch is provided for attendees. At 3pm we call an end to shooting and take a large group photo, clean up shells at the shooting line and award shooting prizes and then all participants earn a door prize. The event wraps up at 4pm. Next year's event will be July 20th, 2024.

Thank you again, for your support.

-The Fall River Rod and Gun Club Youth Committee
